

PASGT

MODEL

Personnel
Armor
System for
Ground
Troops

DESCRIPTION

The PASGT helmet is a reliable and proven piece of protective gear. Constructed from advanced Aramid/PE fibers, this helmet offers exceptional ballistic resistance against shrapnel, fragmentation, and handgun rounds, enhancing the safety and security of the wearer.

Engineered with a focus on both protection and comfort, the PASGT helmet features a secure chin strap and a well-designed suspension system to ensure a snug and stable fit.
